

## I already have a CPA or EA - Why should I also hire a bookkeeper?

Your CPA or Enrolled Agent (EA) is a highly trained tax professional. Most CPAs and EAs would like to get a clean set of books to work with for your taxes. We provide your CPA or EA with what they need to get your taxes done efficiently.

We prepare your books on a monthly basis so you can use that information in your daily business decisions. We then provide the yearly information to your CPA or EA so he/she can prepare your tax returns. You do not need to pay tax preparation rates for your bookkeeping.
