

Why should I outsource instead of hiring an employee to do my bookkeeping?

Outsourcing your bookkeeping services to Bookkeeping Services Group has many advantages. Some of those are:

- You do not need to train a new employee (with the large upfront cost of doing so)
- You do not need to provide benefits for that employee
- You pay only for the time used to do your books
- You will have up-to-date monthly reports to help you make the best business and tax planning decisions
- You have a Certified QuickBooks ProAdvisor® and Enrolled Agent on your team that you can rely on for the long term
- Year-end taxes will be a breeze since you have a complete and up-to-date set of books
- Your bookkeeping will be completely computerized, all invoices from your vendors will be scanned
- We can manage your payroll and prepare your payroll tax forms
- We can handle your collections - you don't have to be the bad guy - let us call and collect your money professionally
